Relief awaits you! Open your clogged-up nostrils and the air passages of your head; stop nose running; relieve the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist on Pape's!—Adv.

Their Name Is Legion.

Harold had told me that his friend Robert was coming over with him to play after school. So when my son showed up without Robert, looking much disappointed, I asked the reason. "O, his mother did say at noon that he could come, but I'll tell you how it is—she is one of those changers of mind."—Exchange.

Evading the Issue.

She—Is it true that liquor will continue to be made surreptitiously? He—My dear, that's all moonshine.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

Its Kind.

"I suppose, then, it was a hot box." "He got furious when he found himself in a box."

Mayflower Is to Sail This Year

New One Will Cross Atlantic in the England-Holland-United States Celebration.

SHIP'S 300TH ANNIVERSARY

Plans Announced for Celebration in Honor of Pilgrim Fathers—Main American Events Will Be in Boston and Plymouth.

New York.—The three hundredth anniversary of the Pilgrim Fathers, tentative plans of which have just been announced here, will include celebrations in England, Holland and the United States, and will continue from May to December, 1920.

A four-day program in Leyden, Amsterdam and Rotterdam, whence the Pilgrims sailed three centuries ago to the American wilderness, where they might find "freedom to worship God," will start on August 30, when committees from the United States and England will be received at the University of Leyden.

Scholars Will Deliver Addresses.

Addresses commemorative of the occasion will be delivered by scholars from the three countries, including the rector of the university, Dr. Rendel Harris of Manchester, England; Viscount Bryce, and a famous American who has not yet been designated.

The next day, August 31, the birthday of the queen of the Netherlands, will include, besides a congress in the town hall, a religious memorial service in the Pieterskerk, in which Rev. John Robinson, who led the separatists from the Church of England (the Pilgrims) to Holland in 1609, was buried.

One of the features of the holiday at Amsterdam, September 1, will be a meeting in the Rijksmuseum, the unveiling of a memorial window in the Bagijnkerk and a reception. The next day there will be an aquatic pageant in Rotterdam, the visitors traveling in the morning from Leyden to Delftshaven if possible by boat along the way the Pilgrims went.

Then there will be trips to the religious havens of Rotterdam, a memorial service in the church at Delftshaven, and at 7 p. m. the English and American contingents will depart for Southampton.

The celebration in England will start in May, 1920, with meetings in Scrooby, the home of Robinson; Austerfield, Boston and Sheffield.

From August 4 to September 20 there will be ceremonies in Cambridge, London, Southampton and other places, culminating in the sailing of the new Mayflower, which will carry the returning American committee and British delegations who are to participate in the program on this side of the Atlantic.

Main events of the American celebration will be in Plymouth, Mass., and Boston, where historical pageants will be held, followed by a big reception in New York. Vice President Marshall

Sight Fails As Artist Paints Heroic Nurse

London.—While engaged on a large picture dealing with the fate of Edith X. Cavell, Mr. Van Huith, a veteran painter, discovered that his eyesight was failing. Oculists predicted that the painter, who is eighty years of age, would lose his sight in a few months. Nevertheless he persevered and added the last touches to his work on the anniversary of the armistice.

is honorary chairman of the committee having the local program in charge.

The foreign visitors will then be taken on a tour of the United States. On November 24, 1920, there will be a universal observance of Thanksgiving day in England, Holland and the United States.

Soap Bubbles Kept Intact Whole Year

Scientific Society Gives Information on Sir James Dewar's Test.

ALWAYS MYSTERY TO SCIENCE

When Bubble Becomes Very Old It Offers Only Possible Example of the Molecule Visible to the Naked Eye.

Philadelphia, Pa.—Facts about the prodigious strength of soap bubbles, proved by experiments in which bubbles were kept intact for more than a year and subjected to all sorts of weight strains, were made public here for the first time by the Franklin Institute, one of the oldest scientific societies in the United States.

Important to Chemists. Coming on the heels of the announcement of Einstein's discoveries of the gravitational bending of light, the exploitation of the soap bubble is on the other end of the scale as to size, yet, according to scientists, is of tremendous importance to chemists, physicists and research workers in the strength of materials and essential elements. The man who made the experiment

is universally recognized as one of the leading scientists in the world. He is Sir James Dewar, LL. D., D. Sc., F. R. S., Fullerian Professor of Chemistry, Royal Institution of Great Britain, and an honorary member of the Franklin Institute.

The soap bubble is a simple thing, yet it has always been more or less a mystery to scientists. They consider it perhaps the best phenomenon existing for the study of the habits and idiosyncrasies of the molecule.

Scientists now claim, on the strength of the experiment made by Sir James Dewar, that when a soap bubble becomes very old, say in three or four days, it offers the only possible example of the molecule visible to the naked eye. Most parts of the bubble are estimated to consist of about one hundred layers of molecules. But by various methods of treatment the bubble is induced to perform "stunts" until in black spots which appear it represents only a single layer of molecules.

Remarkable Strength. This layer is so thin that Sir James estimates it would take one and one-third million like it, superimposed, to make an inch. Yet, when the soap bubble is permitted to mature in air that has been freed of its natural enemies, it is so strong that it will support drops of water many times its own weight before breaking. Sometimes a bubble is torn from its supporting ring by the weight before the molecules release their bulldog grip.

Bird in Jail.

Bath, Me.—Cramped quarters were furnished in the Bath jail recently for the oddest prisoner ever harbored there. The inmate had been arrested in the neighboring town of Woolwich and turned over to the Bath police for safe keeping. He was not a tippler, but a crippled crane, and measured from ten to twelve feet from tip to tip of the wings. After being on exhibition for 24 hours the bird was liberated, all fines being remitted on condition of good behavior.

Peculiar Bird.

Stanford, Ky.—Mrs. Roberts, who lives just beyond Rowland, caught the other day a peculiar member of the bird or fowl species, known as a grebe. It has something of the appearance of a duck, but can neither walk nor fly. It is carried from one place to another on land by heavy wind and is much more at home on water than on land. It was brought to town and exhibited by N. W. Fowle and was later purchased by Sam Gentry.

INDIAN PAINTINGS ON CLIFFS

Owner Offers Them to State or National Authorities to Include in Park.

Austin, Tex.—The most remarkable Indian paintings or photographs in the Southwest have been offered to state or national authorities, provided the cliffs upon which they are drawn are included in a park and adequately guarded, according to J. E. Pearce, associate professor of anthropology of the University of Texas.

These paintings, which are owned by E. D. Sims of Paint Rock, are located along the banks of the Concho river near Paint Rock, upon every available surface for a half-mile. They are in deep red, with an occasional black figure or character.

All phases of the early tribes are represented. Mr. Pearce declares, and so much valuable historical material is included in these paintings that Mr. Pearce will have them copied in scale for a report to the Smithsonian Institution, for which he is doing research work.

BIRDS SHOW INCREASE

Beneficial Effects of Migratory Act Being Felt.

Waterfowl Have Been Breeding Rapidly Under Protection, the Bureau Declares.

Washington.—The beneficial effects of the migratory bird treaty act are beginning to be felt. The United States department of agriculture, through its bureau of biological survey, has conducted investigations of the breeding areas of ducks in North Dakota and Nebraska. Compared with former years, a gratifying increase of breeding waterfowl, particularly in North Dakota, is evident. The fifth annual series of counts of birds of all species breeding on selected areas in various parts of the United States contained a large proportion of reports showing increases in bird population. The total

number of reports received, however, was not large. Many of the persons who had formerly taken part in the annual bird counts were unable to find time for the work required by the fifth count.

"Many species of migratory birds," reports the chief of the bureau of biological survey, "have had a marked increase under the existing treaty act. Waterfowl formerly driven to the far North by spring shooting have remained in steadily increasing numbers to breed in localities where none had previously nested for many years."

Grasping Landlady Sentenced.

Budapest, Hungary.—Dr. Charlotte Szecsi, a physician, has been sentenced to two months' imprisonment because she refused to rent an apartment to a tenant unless he would buy her furniture for 100,000 crowns (nominally \$20,000). The action of the court is in line with the effort to provide housing for the over-congested city.

MISSOURI FOLKS TESTIFY

Tina, Mo.—"I think that there are no medicines on the market to equal Dr. Pierce's. After our baby girl came my wife was in a weak condition and could not regain her strength. She took seven bottles of Dr. Pierce's Favorite Prescription and got well and strong. She says that she just could not get along without it."

"I have used the 'Pleasant Pellets' for constipation for years—am never without them."

"I always recommend Dr. Pierce's remedies."—Wm. E. REYNOLDS, House 1.

St. Joseph, Mo.—"I have taken two vials of Dr. Pierce's Pleasant Pellets and will say that they are wonderful. I have taken other kinds of pills but must say that Dr. Pierce's Pleasant Pellets are the finest medicine I have ever taken for constipation. I feel like a different woman since I have taken them and shall recommend them to all that suffer from constipation. Also my husband says that he never saw a medicine like them; they have done him lots of good."—MRS. GRACE KENNARD, 1311 N. 12th St.

Help for Married Women.

Hannibal, Mo.—"In my early married life when in need of a tonic I found Dr. Pierce's Favorite Prescription to be just the medicine for my case. I am glad to add my testimony to the thousands of others who have been helped by this best of women's medicines."—MRS. MATTIE THOMPSON, 123 S. Eighth St.
